

Fundraiser Video Tips

Goal: Get as many students/athletes into the video as possible

- If your team doesn't have enough players to fill all the slots given on the cue cards, you can just have a player read an entire page.
- For best results, GET THE ENTIRE group together and designate Speaker 1, speaker 2, speaker 3...etc from left to right and then hold the cards above the horizontal iphone and read the cards continuously in one take.
- Upload the clip to iMovie (on iphone) for any adjustments needed or upload directly to the fundraiser pre-admin launch area that says, UPLOAD. Very simple.
