

Fundraiser Video Tips

Goal: Get as many athletes into the video as possible

- If your team doesn't have enough players to fill all the slots given on the cue cards, you can change the number of speakers per clip.
- For example, if you have two captains instead of three, two people can read the clip #1 lines. You could also have one person read an entire card,
- Record HORIZONTAL and use an iPhone if you can. iMovie will make it very easy to edit and complete.
- Atleast one athlete per page.
