

Fundraiser Video Tips

Goal: Get as many athletes into the video as possible

- If your team doesn't have enough players to fill all the slots given on the cue cards, you can change the number of speakers per clip.
- For example, if you have two leaders instead of three, two people can read the clip #1 lines. You could also have one person read multiple cards, such as the clip #1 card, even if the lines are already divided.
- USE an iPHONE... film in order from Coach, 1-10... open iMovie App in iPhone and create movie. Select clips in order and create.
- DOWNLOAD to phone (middle icon with arrow) and text to Cody or upload to Fundraiser for the team.
